

Skillful Teaching Mentoring Program For Pilates Teachers

*"Good teaching cannot be reduced to technique;
good teaching comes from the identity and integrity of the teacher."*

— Parker J. Palmer

There is nothing like having a new path lined by the lantern light of those who have experienced the journey before. Outside of our trainings and workshops there is so much to be learned, discovered and translated that the guidance of someone further down the path can become the key to successfully integrating yourself into the world of teaching.

As you will soon discover teaching is more than just getting a body to move; it's more than instructing. Teaching is guiding, inspiring, motivating and driving students toward their full potential. Teaching is a fully embodied endeavor that requires of us a deep attention to our strengths, motivations, and values. Teaching takes courage. The complete business of teaching takes us further than we can imagine and that is why the support and guidance of a mentor (and mentors) is invaluable.

The ultimate goal of the Skillful Teaching Mentoring Program is to help you create inspired work for yourself, as well as inspire others. We do this by first and foremost exploring the inner demands of teaching. Nurturing our inner teacher along with developing a strong technical base will allow us to create a more solid foundation of committed teaching that is less likely to waiver and more likely to stay Authentic, Meaningful, and Lasting.

Myself and the collaborating master teachers you will work with know from experience that having someone to turn to can be the difference between a teaching life that is mediocre and woven with self-doubt -- often culminating in burnout -- and one where we can be both fulfilled and successful. That is why this one-of-a-kind mentoring program was created and why I am thrilled it will be a part of your journey.

What You Can Expect From The Program

The Mentoring Program is a dynamic and integrative approach to teaching that not only provides an intimate and personal support system for your technical development but helps you nurture who you are as a person and as a professional. In this way, the Skillful Teaching Mentoring Program is unique as it addresses all aspects of the teaching path not merely the method. Through workshops, online, phone, and live interactions you will have the opportunity to be constantly challenged and deeply supported by teachers who are exactly where you are and teachers who have been where you are, by experts, novices and peers.

How It Works

Applying, Participation & Cost

This is an **Application Only** program. All teachers interested in participating will also have to complete an informal interview process as well as provide at least two professional references.

Helping you craft a teaching career with meaning, a vocation that is not only rooted in solid and clear technical skill but brings to light and nurtures you as the teacher, is my PRIMARY GOAL. Therefore the program is only suitable for those who are interested and willing to explore all the dimensions of what teaching requires outwardly and inwardly.

Participants should be prepared to show up fully, engage in all inquiry processes and homework, and attend ALL scheduled events.

This program is **appropriate** for teachers at ANY STAGE, and **ideal** for teachers who want a more dynamic, immersive, and rich experience as they develop themselves as people and teachers.

First Year Participants

The first year of the mentoring program requires a **12-month commitment**. **You may start anytime**. Any material already posted in the current year will be accessible for you to browse, use, or explore in addition to moving along with the current group. **Cost** - \$2200*

Second Year Participants

90% of teachers participate in the program for a second year. *If you choose to participate a second year in the full program you will be encouraged to engage in a Special Project* of your choosing to present to the group. **Cost** - \$2200 *

Payments are available via PayPal auto-pay. See the Registration Form for details. Participants are always grandfathered in at their original rate.
